Aditya Arun Kumar

adityaarunkr@gmail.com | LinkedIn | +91 7762954444

A career-driven professional targeting roles in **Full-stack Development**, exhibiting comprehensive capabilities in end-to-end software engineering, emphasizing the construction of robust and efficient web platforms designed to handle increasing user demands effectively.

Core Competencies

- Scalable System Architecture
- Full Stack Development
- Cloud-native Application Development
- Agile Software Delivery Frameworks
- User Experience Enhancement
- Cross-functional Team Collaboration
- Software Quality Assurance
- Application Lifecycle Management
- System Design Principles
- Continuous Integration Methodologies

Technical Skills

- **Languages:** C#, JavaScript, TypeScript, SQL, Python, HTML5, CSS3
- **Front-end Technologies**: React, JavaScript, TypeScript, HTML5, CSS3, Bootstrap, Responsive Web Design
- **Back-end Technologies:** ASP.NET Core, ASP.NET MVC, Web API, Entity Framework, RESTful Services
- **Database Management:** SQL Server, MySQL, Stored Procedures, Query Optimization, Database Design
- **Cloud & DevOps:** Microsoft Azure, Azure DevOps, Git, CI/CD Pipelines, Version Control
- **Development Tools:** Visual Studio, VS Code, Postman, SQL Server Management Studio, NPM

Education

- **Bachelor of Engineering in Information Science**
  Sir M Visvesvaraya Institute of Technology, Bengaluru, Karnataka, India, July 2021

Personal Details

- **Date of Birth:** 8th Oct 1998
- **Languages Known:** English, Hindi
- **Location:** Bangalore, 560066

Profile Summary

- A Software Engineer with **over 4 years** of proven experience in designing and delivering end-to-end web applications using **React and ASP.NET Core**, with a focus on building scalable, high-performance solutions for enterprise environments.
- Improved page load time by **approximately 40%** through databse query optimization and front-end component rendering.
- Reduced API response time from **55 seconds to 20–25 seconds** through ASP.NET Core service optimization and efficient query handling.
- Implemented **AI-based features** in the system to automate workflows, enhanced user experience, and optimize system performance.
- Skilled at optimizing **database queries, API performance, and front-end** rendering to achieve measurable improvements in application speed, efficiency, and user engagement.

Work Experience

LTM Bengaluru, Karnataka **Dec'2021 – Present**
Software Engineer

Key Result Areas

- Building and enhancing enterprise-grade frontend applications using React, increasing user engagement through well-structured components, reusable UI patterns, and fully responsive designs.
- Developing scalable back-end solutions with ASP.NET Core by designing RESTful APIs that improved response times and supported high-traffic application workloads.
- Improving database performance by creating complex stored procedures and implementing SQL Server query optimization techniques to enhance data retrieval efficiency.
- Setting up and maintained CI/CD pipelines using Azure DevOps, utilizing Git-based workflows to automate deployments, shorten release cycles, and ensure consistent code quality.
- Working closely with cross-functional teams in an Agile environment to deliver features on time, actively contributing to code reviews and mentoring junior developers on best practices
- Managing source code across large-scale repositories using Git, managing multiple active branches, pull requests, merges, and coordinated releases across teams.
- Integrating Azure services such as email templating and cloud storage to extend application capabilities and enable seamless user communication workflow.
- Maintaining and enhancing legacy applications while introducing modern development practices, ensuring backward compatibility and minimal disruption to services.

Highlight

- Played a key role in designing & improving platform performance by **20% and driving a 30% increase in user engagement.**

Certifications

- Programming for Everybody (Getting Started with Python) – Coursera
- AI from Data Center to Edge – Intel
- React Workshop Certification – Professional Development (Front-end Framework Training)

Extracurricular Acitvity

- Winner of Hackathon 2019 and recipient of Competitive Programming Award, Sir M Visvesvaraya Institute of Technology.
